Dear Supervisors:

**REVISIONS TO TITLES 2, 12, 20, 21, 22 AND 26 RELATING TO FEES
CHARGED BY PUBLIC WORKS, REGIONAL PLANNING, FIRE,
PARKS AND RECREATION, AND HEALTH SERVICES
DEPARTMENTS FOR THE REVIEW AND PROCESSING OF
DEVELOPMENT PROJECTS
ALL SUPERVISORIAL DISTRICTS
3 VOTES**

IT IS RECOMMENDED THAT YOUR BOARD AFTER THE PUBLIC HEARING:

1. Approve the new and revised fees, as described in the proposed ordinances, to be charged by the County in connection with the review and processing of development projects.
2. Find that the proposed ordinances are being adopted for the purpose of meeting operational expenses and are, therefore, exempt from the California Environmental Quality Act pursuant to Section 21080(b)(8) of the Public Resources Code and Section 15273 of Title 14 of the California Code of Regulations (the State CEQA Guidelines).
3. Introduce, waive reading, and schedule the proposed ordinances implementing the new and revised fees for adoption.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the proposed ordinances is to update the fees charged by Public Works, Regional Planning, Fire, Parks and Recreation, and Health Services Departments to more accurately reflect the current costs incurred by these Departments in reviewing, evaluating, and processing proposed zoning permits and entitlements and subdivisions and related land development proposals, including tract and parcel maps.

The Auditor-Controller has reviewed the calculations used to determine the amount of these new and revised fees and has determined that the proposed fees are reasonable.

Implementation of Strategic Plan Goals

This action is consistent with the County Strategic Plan Goal of Fiscal Responsibility as the fee revisions provide sufficient funds for full recovery of all costs incurred by Public Works, Regional Planning, Fire, Parks and Recreation, and Health Services Departments in connection with the review, evaluation, and processing of proposed zoning permits and entitlements and subdivisions and related land development proposals.

FISCAL IMPACT/FINANCING

The ordinances revise the fees with the intent to provide full recovery of all related costs. The ordinances also provides for annual CPI adjustments to keep the fees current with cost increases.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Regional Planning, Public Works, Fire, Parks and Recreation, and Health Services Departments each have various roles in the zoning and land subdivision entitlement process. Zoning and subdivision entitlement applications are filed at Regional Planning, while final map applications and improvement plans are filed at Public Works. In each instance, the Departments work in tandem to process the projects. At the request of the Land Development Task Force, established to analyze and make recommendations about the development process in the County, the various Departments analyzed their individual business practices to better understand how they work internally and in cooperation with each other. It was found in a number of situations that a greater focus on project management was needed to improve internal and external communication.

To increase the level of service to the development community and general public, the Departments have been working together to implement a more project management oriented system of coordination involving additional staff resources and the eDAPTS computer tracking system. As a result of these proposed changes, an adjustment is being proposed that will establish fees for development that cover the true cost of providing service.

In addition to the proposed fee increases, staff is proposing to eliminate the Land Development Management Agency (LDMA) surcharges currently placed on development. The LDMA was created by Ordinance No. 82-050 to implement the provisions of Section 65913.3 of the Government Code and was adopted by the Board of Supervisors on November 25, 1982. The LDMA is responsible for coordinating the decision-making, review, and providing information regarding the status of all applications and permits for land development.

In the early 1990s, the LDMA was scaled back due to budgetary constraints. Although no longer in an agency format, staff from the Regional Planning and Public Works Departments continue to provide the service. The state law originally establishing the agency has sunsetted and the Land Development Task Force has made a recommendation that the LDMA and associated fees be eliminated. This will apply to the 23 surcharge fees that have historically been charged to applicants on projects, ranging from subdivision requests to building permits. While the cost of providing these services has been built into many of the proposed subdivision fee increases, seven of the LDMA fees will be eliminated without recapturing costs through another fee. In addition to saving money for new subdividers, this will reduce the costs borne by single-lot property owners seeking to build on or otherwise to improve their property.

Pursuant to Section 66017 of the Government Code, any action adopting a fee or charge, or increasing a fee or charge adopted, upon a development project which applies to the filing, accepting, reviewing, approving, or issuing of an application, permit, or entitlement to use shall be enacted in accordance with the notice and public hearing procedure specified in Section 66016 of the Government Code and shall be effective no sooner than 60 days following the final action on the adoption of the fee or charge or increase in the fee or charge.

Section 66016 of the Government Code provides that prior to levying a new fee or service charge or prior to approving an increase in an existing fee or service charge, the County must hold a public meeting, where oral or written presentations can be made as part of a regularly scheduled meeting. Notice of the time and place of the meeting, including a general explanation of the matter to be considered and a statement that data indicating how the fees were calculated will be available to the public, shall be mailed at least 14 days prior to the meeting to any interested party who has filed a written request with the Clerk of the Board of Supervisors for mailed notice of meetings regarding new or increased fees or charges.

Section 66016 also requires that at least 10 days prior to the meeting, the County must make available to the public data indicating the basis for the fees, including the amount of cost, or estimated cost, required to provide the services for which the fees are levied and the revenue sources anticipated to provide the service. This data will be made available to the public, at Public Works, in accordance with Section 66016.

Additionally, Section 66018 of the Government Code requires that notice of the time and place of the meeting, including a general explanation of the matter to be considered, be published in accordance with Section 6062a of the Government Code (i.e., for 10 days in a newspaper regularly published once a week or more often; two publications, with at least five days intervening between the dates of first and last publication not counting such publication dates, being sufficient).

The proposed ordinances have been reviewed and approved as to form by County Counsel.

IMPACT ON CURRENT SERVICES (OR PROJECTS)
